### NOTES OF THE WEEK

LECTURE .- Mr. T. M. Reichie, as will be seen by idvertisement, proposes to instruct the citizens of Honolulu on that most interesting and all impotent subject, education. This is a matter in which all do, or should, feel a profound interest, and us Mr. Reichie is an instructor of long and varied experience, we anticipate in the lecture, many new and original ideas.

New FIRM.-By notice in our advertising colomne, it will be observed that Messrs. West and Coleman have formed a copartnership for the purpose of carrying on the carriage manufacture and general blacksmithing. We understand that the firm have bought out the shop and stock in trade of the late J. H. Thompson.

THE WEATHER has been excessively sultry for the past ten days, the wind south, the clouds dark and necous of rain, yet so far searcely a drop has fallen, to check the drought which has spread over mountain and plain, pastures and cane fields, and causes clouds of dusts in our streets. The wind is still south, and there is hope yet of rain.

FROM THE GUANO ISLANDS .- The schooner C. M. Ward returned from a cruise among the guano islands, bringing a number of laborers. Among them was a native Hawaiian, who was supposed to be a leper, but on examination here his disease appears to be something else. Another of the returning passengers is insane, and during the passage was very destructive, requiring to be confined in straight jacket. At the various islands visited every thing was going on prosperously, and a number of

versels Lad been loaded and sailed for Europe. AN UNTIMELY DEATH .- The telegraph brings news of the death of Mr. George Smith, the ripe scholar who has for so many years past been engaged in so cessful a search amid the rules of Assyris and Babylon, and whose discoveries and translations of the historic tablets thus recovered have been partially published. Mr. Smith was a newspaper reporter, and was first employed in this important undertaking by the proprietors of the London Daily Telegraph, whose enterprise and public spirit put to shame the parsimony of the Government. Being eminently fitted for the task, and being moreover animated by a genuine enthusiasm for his work, he made rapid progress, and having fortunately been enabled to decipher some tiles which had a direct bearing upon the Biblical records the enterprise

awakened a general interest, which has continued

unabated ever since.

Last year it was 5,872. In 1874 it was 11,397. A New York telegram of the 11th says: "In spite of Tilden's money, in the face of many local difficulties, and notwithstanding the determined efforts of the Democrats, the Republicans of Maine have kept their ayes, and 8 noes. promises. There can be no doubt that all the Republican candidates for Congress have been elected. Penal Code, was read a third time and passed. and at least three of them by the largest majority ever known.
